Linda: this is what I was calling you about. Karen has been very helpful in trying to figure out what's going on by reaching out to State and we're waiting to hear what the results are. Trish Taylor is the CIC that is helping Mike D work with the citizens. At this point in time, I don't see HSCD getting involved, with exception of CIC work - but that may change.

Let me know if you have any questions.

Ron Borsellino, Director
Hazardous Site Cleanup Division
EPA - Region 3

215-814-3170 (Office)
215-667-9442 (Cell)

Hi Ron,

This is one of about six or seven emails I've received in the last 10 minutes demanding an "emergency community outreach meeting" re: drinking water issues related to drilling. This one has a more extensive email list than the others, -- so you can see who's been copied on the message(s). They are also requesting that EPA test drinking water specifically for residents who live on Carter Road, in Dimock

I'd like to suggest having a team meeting to discuss possible 'next steps' to respond to residents' concerns.
I would also like to reply to these emails, but want to confirm what our messages will be for these particular requests first.
Thanks,

Trish Taylor, Community Involvement Coordinator
Hazardous Site Cleanup Division (Mailcode 3HS52)

What is left to be said or happen to get EPA to have an emergency community outreach meeting with Carter Rd residents whose drinking water has been determined by DEP by Duke by Independent Labs to have been affected by shale gas activities through isotopic analyses. Please see the attached DEP INTERNAL DISCUSSIONS about the stray methane in Dimock. When can EPA meet with affected residents whose state (PA) is letting the industry walk away from accountability.

What date works for an EPA Emergency Meeting?

Sincerely, [Ex. 6 - Personal Privacy]
